

Barrel Clamp

Barrel Clamps - A Barrel Clamp is a mechanical or hydraulic accessory designed for a lift truck. It could be used in order to squeeze the item you would like to transfer utilizing the forklift and is usually utilized for handling paper rolls, barrels, and kegs. A few types of barrel clamp accessories even have a rotate function. Like for instance, the revolving function allows the one operating the forklift to put in a vertically stored paper into the horizontal intake of a printing press.
