

TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of each and every global industry. Transporting industrial goods occurs each day on our hectic planet. First innovated as industrial vehicles in the 1930s in the United States, forklifts gained popularity following WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread worldwide.

First established as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first forklift. Over the years, TCM lift trucks have become a global leader in lift truck manufacturing and have built a solid reputation with the business. TCM began building forklift manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

With over fifty years of accumulated expertise and technology, TCM has been proudly manufacturing numerous models of industrial forklifts, making their models recognizable all over the globe. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling business.
