

Clark Forklift Parts

Clark Forklift Parts - At present, there are no less than 350,000 Clark lift trucks performing worldwide, and more than 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive designs of forklifts, with parts covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Supplier is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very impressive global support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every forklift.

Clark has a unyielding objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the system of "Lean Production" at all of its assembly facilities because this technique is extremely economical and allows for minimal use of resources. Developed to ensure maximum efficiency, this system is designed to find and acknowledge the most efficient methods for production facility management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the effectiveness and brilliance of their products while minimizing expenses. The contemporary value engineering program combines innovative product growth and offers superior client support and service within the industry.
