

## Meritor Parts

Meritor Parts - Meritor is a leading international dealer that is proudly established on a 100 year tradition of service and quality. They focus on various modules, integrated systems and components to original equipment manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of all their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor encourages innovation and collaboration amongst a team of experienced professionals.

By just hiring future focused people, Meritor strongly thinks these top-caliber individuals will be able to quickly get used to to changing environments and demonstrate the performance and commitment required to be able to reach results in the competitive materials handling market. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor offers their staff various opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise drivelines, axles, suspension and braking systems meant for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the requirements of their international engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum development at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 countries.

They have their supplier network that is specifically situated so as to support the growth of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in every part of the company. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean techniques.
